

Download Modern Biology Species Interactions Review Answers

In common usage, the word "human" generally refers to the only extant species of the genus Homo—anatomically and behaviorally modern Homo sapiens. Edited by David M. Karl, University of Hawaii, Honolulu, HI, and approved January 17, 2013 (received for review December 2, 2012) Species diversity is marked by some interesting facts--such as larger areas have more species, and diversity is particularly high near the equator.
